BIBLIOGRAPHY **Quantitative Summary:**

As of October 15, 2010, between 97 (PubMed), 112 (PsycINFO), and 159 (Social Sciences Citation Index) indexed entries, cited a total of 2352 times (2053 excluding citations by own group), for an average of 14.4 citations per article and an *h*-index of 27 (SSCI) or 28 (SCOPUS). Because work on bipolar disorder is interdisciplinary by nature, some publication outlets are more likely to be indexed in medical databases, and others in social science databases.
